Stuff about ready to get real. I think we do need to bring in outside security of some kind. Protest already scheduled for Tuesday afternoon. We need to update the website and reg. page ASAP about comment slots are full.

For today's meeting, attached are the revised draft documents that will be available during the public hearing – public notice, summary sheet, and comment form. Also attached is the draft run of show and opening statements.

In order to simplify the information on the summary sheet, I removed two sections – 1) public comment procedures explaining how to submit written comments; and 2) EPA actions after the public comment period. This information is within the Public Notice and was duplicative.
